### EXPERIENCE

#### Informa TechTarget — Editorial Operations Manager

*February 2026 - Present*

Lead cross-functional operational programs for a global B2B technology publishing platform, partnering with business and newsroom leadership to improve performance, implement scalable systems, and align execution with organizational goals.

- Lead complex initiatives from discovery through implementation, aligning stakeholder requirements, business priorities, workstreams, and performance objectives.
- Analyze operational challenges and available data to identify risks, resolve performance obstacles, and recommend actionable solutions to leadership.
- Design and implement systems, tools, and processes that improve efficiency, consistency, and organizational performance.
- Manage capacity planning, change requests, executive reporting, governance reviews, and cross-functional dependencies.
- Develop implementation plans, SOPs, training programs, and adoption frameworks supporting successful organization-wide change.

#### Freelance & Contract — Program Manager and Operations Consultant

*June 2020 - Present*

Lead business, operational, and revenue-focused engagements for publishers, enterprise brands, and agencies including Valnet, The Arena Group, ADP, Ricoh, PwC, Edelman, Havas Formula, and WE Communications.

- Build KPI frameworks, delivery plans, operating processes, and performance measurements for revenue, brand, workflow, and business-transformation initiatives.
- Developed revenue frameworks supporting programmatic advertising, sales campaigns, and syndication initiatives that helped increase sessions and revenue by an average of 80% in two months.
- Led a major publication brand refresh supporting growth to millions of monthly unique visits.
- Redesigned operational workflows across multiple brands, increasing per-author productivity approximately 35%.
- Managed a business-process transformation that increased production to approximately 600 deliverables per month, a 50% increase.
- Led cross-functional initiatives spanning enterprise clients, agencies, brand teams, operations, technology, and revenue stakeholders.
- Developed scalable programs and operating systems for four brands while managing goals, deliverables, KPIs, stakeholder expectations, and implementation.

## **Digital Trends Media Group — Director of Operations | Program Manager**

*February 2019 - May 2024*

Directed commercial programs, operations, partnerships, and business performance across a portfolio of 22 digital properties. Led nine full-time employees and 160+ freelance contributors while managing budgets, strategic partnerships, revenue initiatives, launches, and cross-functional execution.

- Managed 100+ strategic brand partnerships and worked across sales, commerce, editorial, engineering, SEO, and executive leadership to develop and execute revenue-generating initiatives.
- Generated 39 new revenue streams across the portfolio through commercial partnerships, new programs, sales initiatives, sponsored programs, affiliate opportunities, and product development.
- Managed a \$130,000 monthly budget across nine brands, balancing investment, resources, performance objectives, and business priorities.
- Built a scalable operating and revenue framework that tripled output and helped drive 525% revenue growth across the portfolio; The Manual grew from 1.2 million to 4.7 million monthly uniques and increased revenue 400%+ year over year.
- Increased per-site profit margin to 85% through operating efficiencies, revenue initiatives, portfolio optimization, and performance management.
- Partnered with sales and commerce teams on revenue-generating programs producing an average of \$70,000 in additional monthly revenue per brand.
- Directed an Amazon-focused commercial initiative generating more than \$1 million in annual net revenue.
- Built an AI-first legacy-content update program addressing approximately \$8,000 per month in identified revenue risk; increased updates 5X, cut spend 3X, improved average search rank by five positions, and increased first-page rankings 450%.
- Created a generative AI research workflow for new-content planning with structured prompts, multi-model research, human verification, training, and governance.
- Led newsletter optimization that increased open rates from 8% to 34%, expanded subscriptions from 30,000 to more than 165,000, and increased newsletter revenue 500%.
- Directed a portfolio of 100+ projects annually, evaluating priorities, resource requirements, performance, dependencies, risks, and business impact.
- Program-managed the launch of seven new brands and digital properties, coordinating commercial, operational, technical, and stakeholder requirements through successful delivery.

## **DHI Group Inc. — Senior Project Manager, Editorial**

*March 2016 - April 2019*

Supported Dice Career Advice, a B2B/B2C technology careers platform, with project ownership spanning marketing, events, search optimization, contributor programs, audience development, and cross-functional digital initiatives.

- Led cross-functional projects to improve search visibility, discoverability, audience growth, and overall brand performance.
- Initiated and managed a contributor-network expansion program, coordinating subject-matter experts, internal stakeholders, timelines, and deliverables.
- Managed content initiatives supporting DHI events and partnered with engineering on event landing-page projects from planning through implementation.
- Coordinated print, digital, and email marketing initiatives, including campaign execution, A/B testing, performance analysis, and optimization.
- Worked across editorial, marketing, events, and engineering teams to manage project requirements, dependencies, priorities, and delivery.
