Senior Project Management | Project Planning & Delivery | Scope, Schedule & Budget Management | Requirements Gathering | Risk & Dependency Management | Resource & Capacity Planning | Change Control | Stakeholder Management | Executive Status Reporting | Cross-Functional Leadership | Agile, Scrum & Hybrid Delivery | KPI & Performance Tracking | Process Improvement | Change Enablement

EXPERIENCE

Informa TechTarget — Editorial Operations Manager

February 2026 - Present

Lead newsroom operations and cross-functional project execution for a global B2B technology publishing platform, partnering with newsroom leadership and enterprise teams to improve workflows, deploy scalable tools, and support organization-wide adoption.

- Lead complex initiatives from discovery through implementation, gathering requirements, defining scope and delivery plans, managing risks and dependencies, and aligning cross-functional stakeholders with business goals.
- Design and implement systems, tools, and processes that streamline publishing workflows and improve operational efficiency.
- Develop implementation documentation, SOPs, onboarding, and structured training programs to support consistent execution and change adoption.
- Manage capacity planning, change requests, executive status reporting, and governance reviews; surface risks and tradeoffs, resolve blockers, and present actionable decisions to leadership.

Freelance & Contract — Program Manager and Operations Consultant

June 2020 - Present

Lead project and program engagements for publishers, enterprise brands, and agencies including Valnet, The Arena Group, ADP, Ricoh, PwC, Edelman, Havas Formula, and WE Communications, with a focus on process redesign, platform implementation, content operations, and revenue growth.

- Developed project charters, delivery plans, KPI frameworks, and deliverables for brand, workflow, and operational transformation initiatives.
- Led a brand refresh project for a major publication, supporting growth to millions of monthly unique visits.
- Standardized article production through an HTML template initiative spanning five brands; redesigned workflows that increased per-author productivity by approximately 35%.
- Transitioned teams to an Agile framework with weekly sprints and served as lead project manager for new workflows across six brands.
- Managed a publishing cadence transformation that increased output to an average of 600 articles per month, a 50% increase.
- Built editorial calendar programs for four brands and revenue frameworks supporting programmatic advertising, sales campaigns, and syndication initiatives; helped increase sessions and revenue by an average of 80% in two months.

Digital Trends Media Group — Director of Operations | Program Manager

February 2019 - May 2024

Directed programs and operations across a portfolio of 22 digital properties, leading nine full-time staff and more than 160 freelance contributors while managing launches, budgets, partnerships, revenue initiatives, and cross-functional execution.

- Managed 100+ projects annually, coordinating engineering, SEO, sales, editorial, and leadership while controlling priorities, dependencies, resource capacity, delivery risk, timelines, and budget constraints.
- Led end-to-end delivery of seven new website and brand launches, developing project plans, coordinating cross-functional workstreams, and completing launches on time and within budget.
- Managed a \$130,000 monthly budget across nine brands and maintained 100+ brand partnerships.
- Built a scalable content operations framework that tripled output, grew The Manual from 1.2 million to 4.7 million monthly uniques, increased The Manual revenue 400%+ year over year, and helped drive 525% portfolio revenue growth.
- Created a generative AI research workflow for new-content planning with structured prompts, multi-model research, human verification, training, and governance.
- Built an AI-first legacy-content update program addressing approximately \$8,000 per month in identified revenue risk; increased updates 5X, cut spend 3X, improved average search rank by five positions, and increased first-page rankings 450%.
- Partnered with sales and commerce on programs averaging \$70,000 in additional monthly revenue per brand; generated 39 new revenue streams and led an Amazon initiative producing more than \$1 million in annual net revenue.
- Led a newsletter optimization program that increased open rate from 8% to 34%, grew subscriptions from 30,000 to 165,000+, and increased newsletter revenue 500%.

DHI Group Inc. — Senior Project Manager, Editorial

March 2016 - April 2019

Supported Dice Career Advice, a B2B/B2C technology careers platform, with project leadership spanning search optimization, contributor programs, events, marketing, and email.

- Led a project to improve search visibility and discoverability for the brand.
- Initiated and led a program to expand a network of contributing experts.
- Led content initiatives for the DHI events team and collaborated with engineering on event landing pages.
- Managed print, digital, and email marketing initiatives, including A/B testing for weekly newsletters.
